6. Employment

Yes: 49%
 No: 40%
 P N D: 11%

7. Receive Financial Assistance

Yes: 41%
 No: 59%

8. Disability

Yes: 1%
 No: 99%

9. Have you attended any of our previous fairs?

Yes: 15%
 No: 77%

This fair took place in repeat location at the The Breakside Brewery Taproom in Milwaukie. We attracted a greater nonprofit community this time around and were able to add services like Influenza Vaccines and Covid-19 Vaccines with incentives. We received two grants to help

support our donation and incentive efforts (Care Oregon and Clackamas County). We gave \$1650 in Covid incentives for those getting vaccinated, over 3,000 lbs of food, 150 winter coats for youth ages 0-12 and 200 bags of toiletry items like shampoo/conditioner/soap, etc. The grants helped to pay for the additional infrastructure needed at this event as it was outside (tables and tents). The event was a drive-through only event which had a nice flow. Guests were asked to stay in their vehicles at all times and all drivers and passengers were required to wear masks. We no longer need to conduct temperature checks. Nonprofits visited with guests as they stopped in front of their station and vaccines were administered to guests while they were in their cars. We had the largest number of volunteers work at this event compared to all past events. The Rose Church connected with us through Hands On Portland and brought 13 volunteers alone. The flow of the event went well with no major traffic issues except one car almost ran out of gas. We may consider having a gas card on hand in the future just in case something like this happens again. We had a big rush of guests at the beginning of the event. After an 1.5 hours it slowed but was steady until the end of the event. We had 5 volunteers assist with unloading the van at the storage unit in NW after the event which is typically a task I do solo. That was amazing. Our partners Bob's Red Mill and Breakside were amazing and provided a ton of support. They both held coat drives to raise coats for the event and brought a lot of volunteers to help as well. At our next event I would like to continue to do more outreach in Clackamas County for additional nonprofits to partner and potentially add more for-profit partners as well. We saw a large increase of guests, volunteers and nonprofits at this event and I would like to continue those efforts.

What would I do differently or add next time...?

1. Continue to solicit resources to share.
2. Include a disaster preparedness info booth for guests – fire and winter storm
3. Continue to increase Clackamas County partnerships
4. Veterans Outreach in Clackamas County
